

Smallbore Report by Carmen Amatucci

The Smallbore (**Rimfire**) Range monthly shoots are scheduled for the first Sunday of the month. **Yes**, there will be shoots every month. The Smallbore Matches offer several courses of fire:

- o Bench Rest Paper Silhouette Target at 50Yards
- o Sitting (using shooting sticks) shooting Smallbore Paper Bull Targets at 50Yards
- o Standing shooting Smallbore Metal Silhouettes at 50 Yards

All .17 or .22 Caliber Airgun Rifles, and .17 or .22 Caliber **Rimfire Magnum Rifles** can participate in the Smallbore Matches.

Remember all Rimfire Magnum Rifle Shooters must use 50 Yard positions 9 & 10 shooting at paper targets only!

We are forming an Iron Sight Lever Gun League, which will start with the January Shoot. If you do not have an Iron Sight Lever Gun, do not let that stop you from participating in the Winter League. If you have an Iron Sight Pump or an Iron Sight Bolt Action **Sporter Rifle** you are welcome to participate.

The Smallbore (**Rimfire**) Winter League will be shooting at 10 Pig, and 10 Turkey Metal Silhouettes at 50 Yards. We will shoot Paper Silhouettes at 50 Feet if the weather does not permit shooting at Metal Silhouette Targets at 50 Yards.

If you have any suggestions regarding the Smallbore (**Rimfire**) Range, whether it is in regard to Shoots or the Range, please do not hesitate to contact me or one of the DCFS Club Stewarts.
